DETAILED ACTION

Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: the essential difference from the prior art is determining a third area of a color graphic image by performing a logical AND between a first area of the color graphic image that has a low color gradient value and a second area of the color graphic image that has a high intensity value. A candidate patch for human faces are selected based on suitable hue saturation regions in the third area. These features in combination with the other elements of the claim and the base claim are not disclosed or suggested by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
